

Project Information Sheet

PROJECT DESCRIPTION

The project will include the supply and installation of five smooth wall steel pipe culverts by boring and sleeving on Highway 11 and Highway 3 in the vicinity of Prince Albert, and the supply and installation of two flared end treatments on Highway 55 in the vicinity of Meath Park.

The work will take place at the following locations:

- Three 1 350 mm diameter culverts on Highway 3, approximately 4.2 km southeast of Prince Albert.
- One 900 mm diameter culvert on Highway 11, approximately 18 km west of its Junction with Highway 2 near Prince Albert.
- One 750 mm diameter culvert on Highway 11, approximately 0.1 km west of its Junction with Highway 2 near Prince Albert.
- Two Flared end Treatments on the culverts on Highway 55, approximately 1.1 km east of its junction with Highway 120 near Meath Park.

PROJECT DETAILS

- The Contract Number for this project is H25053.
- The Contractor for this project is KBL Projects Ltd.
- The Contractor's address as indicated on the bidder's signing block is Leduc, Alberta.
- Contract supervision will be provided by Ministry of Highway personnel.
- The Contractor is expected to begin culvert installation in the week of October 13, 2025. The contractor is expected to complete most of the work by March 17, 2026, with final cleanup completed by June 15, 2026. The final completion date is set for June 29, 2026.
- All roadways will remain open to traffic during construction and no width restrictions are anticipated. Reduced speed will be in place while workers and/or equipment are present.
- The estimated total cost of this project is 1.3 million, including materials, construction engineering, and PST.
- This is a Capital Program project in the Northern Maintenance Region.
